

Introducing the Mentorship Hub

The Mentorship Program is a service that connects newcomers with career mentors in their field or in a similar field for the purposes of networking, learning, and growth.

Gaining a mentor can be very beneficial for one's career path in Canada.

The ***Mentorship Hub*** is a new resource for newcomers to access valuable information about their career in Canada including information on licensing, credential assessments, transferable skills, similar career paths etc.

It is located in Room #2 at 85 Church St. St. Catharines (on the first floor).

Feel free to stop by and grab some resources.
